Statement of intent

We confirm our intention to participate in DECIDE-SAH, an international multicenter retrospective observational study in aneurysmal subarachnoid hemorrhage, subject to the applicable local ethics, data-protection, institutional and contractual requirements.

This confirmation is non-binding with respect to patient-level data transfer. It does not replace local approvals, a feasibility assessment, site activation, a data-use/transfer agreement or any other institutionally required authorization.

Use in consortium and funding documentation

[ ] **Yes —** our institution may be listed as a center with confirmed intent to participate in DECIDE-SAH in scientific funding applications and internal consortium documentation.

[ ] **No —** please do not list our institution in such documentation until further written confirmation.

Confirmation

Name / position	Date	Signature

Important: No feasibility data are collected in this form. Cohort characteristics and data capability are assessed separately in the DECIDE-SAH Center Feasibility & Cohort Profile Form.
